

REMARKS

Claims 16-31 stand allowed and prosecution on the merits is closed. Applicants herewith amend the specification and drawing to correct several inadvertent typographical errors. The attached specification and drawing amendments include no new matter.

Examiner objects to the drawing because of several recited informalities. Applicant herewith amends Fig. 2 (sheets 2-4 of 7) to correct the recited informalities and three other minor inadvertent informalities. No new matter is added to the application. The specification is amended to correct a single numeral (130 is corrected to 131) related to the recited drawing informalities. Applicants respectfully suggest that these amendments overcome the basis for Examiner's objections to the drawing and request reconsideration and withdrawal of the drawing objections.

No additional fee is required at this time.

Respectfully submitted,

mH. Jester 4-25-05
